What do we commit ?

1) UPSC Standard Full Length Tests

The test series consists of Sectional and Simulation tests.

Sectional tests are the first ten tests designed to cover all the topics in the General Studies Papers.(Eg: 2 Tests covers one GS Paper). The tests are designed accordingly so that one GS Paper can be **comprehensively completed within 15 Days.**

No matter whether you are a fresher or a veteran with prior experience, **a systematic and a methodical time table** helps you to revisit all the

topics that need to be covered at least once before the Main Examination.

Simulation tests (2 Simulation Series)

replicate the real UPSC Main Examination to judge yourself. Evaluation will be done by a common team of faculty members so that the chance of subjectivity is almost minimized to near zero levels.

2) Personal Mentorship and

Evaluation by our Core Team Members.

We are available for personal telephonic calls from **10 AM to 10 PM**.

Any doubts about reading resources, how to plan your schedule or to clarify any doubts related to effective answer writing, remember we are just a call away.

3) Comprehensive Evaluation

Every single answer is evaluated on the basis of

9 different parameters. You can witness yourself gradually improve with time. **We don't delegate our work to aspirants who are as busy as you are in preparing for their own Main Examination.**

Instead, our team of faculties who have set the Questions will evaluate your answer scripts for any improvements and will personally give you their feedback.

4) Synopsis and Model Answers

shall be provided along with any additional facts / statistics that are relevant from the Main Exam Point of View. Your answer might be the best, but trust us when we say that there is always a point or two that you can learn from our synopsis.

5) Approach Paper

As you will observe from the time table, all our tests are scheduled on the Weekends. **On the Monday of every week starting from Oct 12, 2020 an approach paper for the upcoming Test will be provided.**

The approach paper will be an eye opener to understand the sub topics and areas that need to be focussed upon. The reading resources and links to important documents and CivilsWrite Material for Main Examination shall be sent to the registered e-mail id.

6) In addition to the tests...

We will follow up by posting you 5 Questions every week (1 Question everyday) on the relevant topics for which you may write answers and post it back to us. We will evaluate your answers and give you the feedback on the very same day. This is to make sure you complete daily targets and move on to the next topic. **A sense of completion of all the Mains relevant topics before the Exam** can boost your confidence levels to clear the examination.

6) CHOOSE - Tests of your choice and attempt at your own convenience after the date on which it will be activated.

7) To sum it up all...

Compare our Test Package with others and you can find where value for your money spent lies.

It is only with academies like ours you would get to interact personally with our team. For bigger players you are just one more Rank in their Final Rank List. We would work harder than you in your fight to make it to the list.

Evaluation of the answer scripts would be provided within 7 days.

IV. Essay Plan: 4 Abstract and Philosophical Essay Tests

Fees:- Rs.2999/-

Essay can turn out to be the complete game changer in CSE Mains Examination. There can be no other paper as

rewarding as the Essay paper in catapulting your scores to the highest. However it turns out that the Essay Preparation for the examination has to be done in the correct manner.

We have a schedule that has 4 Essay Tests and each test can help you in approaching at least 4 dimensions that tends to be asked in the Essay paper. If you have thought about 15 different abstract areas in advance and have written convincing answers we can assure you of easily crossing the 160 mark barrier in the Essay Paper.

Since freshers might find themselves short of time we would limit the utility of this Plan for the veterans who would need extra hand holding in excelling in the Essay papers.

Test No.	Date	Topics
1	18-10-2020	Science, Religion, Education, Knowledge & Learning
2	25-10-2020	Individual, Society, Conflicts between Individual and Society & Values
3	15-11-2020	Power, privileges and Happiness
4	22-11-2020	Spirituality, Philosophy and Self Understanding

Finally...

The most intense phase in the entire preparation cycle is the Main Phase of the Examination.

Time would just fly in the blink of the eye. Make use of the test plan that we have

scheduled in the most meticulous manner possible. Since this is our inaugural year we can assure you that we would work doubly harder than any other academy to ensure your dream is fulfilled. **It is in your success lies our success** and we would ensure no stone is unturned to provide you with the best support through your Mains Preparation.

Trust us to be your stepping stone to Success!
